Any incident resulting in damage to any part of the body shell (monocoque) and/or safety cage must be reported to the MSA Technical Delegate.

Cars repaired as a result of damage to the body shell or roll cage and not inspected and certified by the Technical Delegate and required Authorized Suppliers will not be scrutineered.

This Document is issued and authenticated by the MSA Technical Delegate, who may identify the presented vehicle with markings that must under no circumstances be removed. This passport must be presented on demand of the Scrutineers.

Upon the destruction of the chassis, this passport must be returned to the MSA.

This passport must be accompanied by the complete homologation form to which this vehicle refers.

This passport remains the property of the MSA.

It found, this passport must be sent to:
